Journal of Forecasting, Vol. 8, v–viii (1989)

Contents

Volume 8, Issue Nos 1–4
JOURNAL OF FORECASTING

Issue No. 1, January–March

Should Fixed Coefficients be Re-estimated Every Period for Extrapolation?: *P. A. V. B. Swamy and G. J. Schinasi* 1

Operational Filtering of Traffic Data: *S. A. Ahmed* 19

Subjective Intervention in Formal Models: *M. West and J. Harrison* 33

On Detecting and Estimating a Major Level or Slope Change in General Exponential Smoothing: *D. B. Jun* 55

A Simple Check of the Time Homogeneity of Markov Chains: *A. Mattsson and D. Thorburn* 65

Announcement and Call for Papers—

Special Issue on Judgment in Forecasting 73

Issue No. 2, April–June

Time Series Forecasts and Extra-model Information: *A. Pankratz* 75

A Dynamic Linear Model Approach for Disaggregating Time Series Data: *M. Al-Osh* 85

Forecasting Non-seasonal Time Series with Missing Observations: *M. Aldrin and E. Damsleth* 97

Feedback Forecasting Games: an Overview: *R. J. Bowden* 117

Judgemental Revision of Sales Forecasts: A Longitudinal Extension: *B. P. Mathews and A. Diamantopoulos* 129

An Examination of the Accuracy of Judgemental Confidence Intervals in Time Series Forecasting: *M. O'Connor and M. Lawrence* 141

Letters to the Editor 157

Announcement 159

Indexed or abstracted by 'Butterworth Sci. Limited—FUTURES', 'COREJ', 'Cambridge Sci. Abstracts', 'Current Contents', 'Current Index to Statistics', 'Executive Sciences Inst. Inc.', 'Management Contents Inc.', 'Materials Information', 'Public Affairs Info Service', 'Sociological Abstracts Inc.', 'Statistical Theory & Method Abstracts', 'VINITI-USSR Acad. of Sciences'.

Issue No. 3, July–September

Special Issue on Combining Forecasts

Editorial: Forecasting with More than One Model: *D. Bunn* 161

Invited Review: Combining Forecasts—Twenty Years Later: *C. W. J. Granger* 167

Unbiasedness, Efficiency and the Combination of Economic Forecasts: *K. Holden and D. A. Peel* 175

Combining Algorithms Based on Robust Estimation Techniques and Co-integrating Restrictions: *J. Hallman and M. Kamstra* 189

Linear Combination of Forecasts: a General Bayesian Model: *G. Anandalingam and L. Chen* 199

Optimal Conditional ARIMA Forecasts: *V. M. Guerrero* 215

Collinearity and the Use of Latent Root Regression for Combining GNP Forecasts: *J. B. Guerard, Jr and R. T. Clemen* 231

The Combining of Forecasts Using Recursive Techniques with Non-stationary Weights: *D. N. Sessions and S. Chatterjee* 239

***N*-Step Combinations of Forecasts:** *S. I. Gunter and C. Aksu* 253

A Preference-based Method for Forecast Combination: *K. D. Wall and C. Correia* 269

The Combination of Macroeconomic Forecasts: *C. W. Bischoff* 293

Composite Model Building for Foreign Exchange Rates: *J. B. Guerard, Jr* . . . 315

Subjective versus Objective Combining of Forecasts: an Experiment: *B. E. Flores and E. M. White* 331

Experience in Combining Subjective and Quantitative Forecasts of Open Market Rates: *B. de Bragança Pereira, R. C. O. Coqueiro and A. H. V. Perrota* . . 343

Combination of Forecasts in Electricity Demand Prediction: *D. G. C. Smith* . 349

Issue No. 4, October–December

On Multistep Prediction Error Methods for Time Series Models: *P. Stoica and A. Nehorai* 357

A Constrained Least Squares Method for Estimating the Effects of an Unknown Monotonically Intervening Factor: *S. Thore* 369

Forecasting the Antwerp Maritime Steel Traffic Flow: a Case Study: *J. G. de Gooijer and A. Klein* 381

Variance Intervention: *P. Young and C. Ng* 399

Comment on 'Variance Intervention': *D. B. Jun* 417

Corrections to a Comparison of Forecasts from Least Absolute Value and Least Squares Regression: *T. E. Dielman* 419
